

Hume Hockey Centre - Second Pitch

What is the project?

The Hume Hockey and Lacrosse Centre, Craigieburn was planned as a two stage development with the first stage commencing in 2015 with the construction of the synthetic hockey and lacrosse pitch with sports lighting and concluding with the completion of the sports pavilion in 2018.

Land on the site was allocated for the second and final stage of the development, a second pitch and additional change room facilities, as participation and demand justified the investment.

The second stage of the project includes the construction of the second pitch which will look to deliver the following components:

- 1 x Full-sized Synthetic Hockey Pitch
- 6-pole LED Sports Lighting System
- players and officials benches
- chainmesh fencing (around pitch)
- safety fencing (behind goals)
- goal storage areas
- surrounding concrete footpaths to connect into existing pathway network.

Why is it important to the Hume City community?

The significant growth in hockey participation since the activation of the Hume Hockey and Lacrosse Centre has seen the establishment of 3 hockey clubs, including Hume Hockey Club, Craigieburn Falcons Hockey Club and United Khalsa Hockey Club.

Two of the clubs are primarily composed of residents with Indian sub-continental heritage demonstrating the popularity of the sport, with that cultural demographic in Hume's growth regions. The construction of the second hockey pitch and associated amenity at the site is crucial to meeting the growing demand for the sport.

What we're seeking:

We need \$1,900,000 from the Federal Government to complete this project.

Hume City Council Contribution:
\$1,948,001.50

Total Project Cost: \$3,848,001.50
